

MITRA AI - Health Schemes, Programmes & Service Initiatives

156 health-focused Government of India schemes, national programmes, public-health missions, service initiatives and access programmes for use as a structured research/RAG corpus

Scope and methodology

This corpus is intentionally health-only. It was assembled from current/official Government of India programme directories and department sources, then organised into practical health categories for a citizen-facing scheme assistant. The corpus includes direct beneficiary schemes as well as public-health programmes and service initiatives because the official health ecosystem contains both kinds of government interventions. Not every item is an individual cash/application scheme; some are facility-, community-, or population-level health programmes.

For each item, the requested fields are provided: scheme/programme name, category, key benefits, eligibility or target group, and gender eligibility. Eligibility is intentionally summarised at a high level and should be checked against the current official guideline and local/state implementation before MITRA gives a final user-facing eligibility answer.

Research basis

Primary official source families used include the National Health Mission (maternal, child, adolescent, immunisation, family planning, NCD, health-system and communicable-disease programmes), the National Centre for Disease Control, the Central Tuberculosis Division, the National AIDS Control Organisation, the Ministry of Health & Family Welfare, the Ministry of AYUSH, the Department of Empowerment of Persons with Disabilities, and PMSSY.

Examples of current official directories confirming the breadth of the health programme ecosystem include NHM's NCD programme directory, NHM's child/adolescent/immunisation/family-planning pages, NCDC's national health programme directory, and the Ministry of AYUSH scheme portal.

Category index

Health Access & Financial Protection: 15 items

Maternal & Reproductive Health: 22 items

Newborn, Child & Adolescent Health: 22 items

Immunization, Nutrition & Preventive Health: 15 items

Communicable Disease Control: 29 items

Non-Communicable, Mental Health & Geriatric Care: 19 items

Disability, Rehabilitation & Assistive Care: 8 items

AYUSH & Traditional Healthcare: 10 items

Health Systems, Emergency & Digital Health: 16 items

Health Access & Financial Protection

1. Ayushman Bharat - Pradhan Mantri Jan Arogya Yojana (AB PM-JAY)

Key benefits: Health assurance for eligible households for covered secondary and tertiary hospitalisation, with cashless treatment at empanelled hospitals.

Eligibility / target group: People/families identified under current PM-JAY beneficiary rules and applicable expansions; exact coverage depends on the current beneficiary database and programme rules.

Gender eligible: All genders

Source authority: Ministry of Health & Family Welfare - mohfw.gov.in

2. Central Government Health Scheme (CGHS)

Key benefits: Comprehensive outpatient care, medicines, diagnostics, specialist consultation and hospital services through the CGHS network.

Eligibility / target group: Serving/retired Central Government employees and eligible dependants and other notified beneficiary groups; city coverage and beneficiary categories follow CGHS rules.

Gender eligible: All genders

Source authority: Ministry of Health & Family Welfare - mohfw.gov.in

3. Employees' State Insurance (ESI) Scheme

Key benefits: Medical care and social-security benefits including sickness, maternity, disablement and dependants' benefits for insured workers and eligible family members.

Eligibility / target group: Employees in covered establishments meeting applicable ESI coverage/wage conditions and their eligible dependants.

Gender eligible: All genders

Source authority: Employees' State Insurance Corporation - esic.gov.in

4. Rashtriya Arogya Nidhi (RAN)

Key benefits: Financial assistance for treatment of major life-threatening diseases at eligible government hospitals/institutions for economically vulnerable patients.

Eligibility / target group: Indigent patients from eligible low-income backgrounds who meet the current RAN guidelines and receive treatment at an eligible government institution.

Gender eligible: All genders

Source authority: Ministry of Health & Family Welfare - mohfw.gov.in

5. Health Minister's Cancer Patient Fund (HMCPF)

Key benefits: Financial assistance for eligible cancer treatment under the Rashtriya Arogya Nidhi framework.

Eligibility / target group: Eligible poor/indigent cancer patients meeting the current assistance rules and treated at eligible government institutions.

Gender eligible: All genders

Source authority: Ministry of Health & Family Welfare - mohfw.gov.in

6. Health Minister's Discretionary Grant (HMDG)

Key benefits: Limited financial assistance for eligible poor patients facing major illness and treatment expenses under notified conditions.

Eligibility / target group: Indigent patients who satisfy the current grant conditions and application/document requirements.

Gender eligible: All genders

Source authority: Ministry of Health & Family Welfare - mohfw.gov.in

7. Pradhan Mantri Bhartiya Janaushadhi Pariyojana (PMBJP)

Key benefits: Affordable access to quality generic medicines and selected medical consumables through Janaushadhi Kendras.

Eligibility / target group: General public may purchase medicines; opening a Kendra has separate application and eligibility rules.

Gender eligible: All genders

Source authority: Department of Pharmaceuticals / PMBJP - janaushadhi.gov.in

8. Free Drugs Service Initiative

Key benefits: Free essential medicines through participating public health facilities to reduce out-of-pocket medicine spending.

Eligibility / target group: Patients using participating public health facilities; availability depends on state implementation and the facility formulary.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

9. Free Diagnostics Service Initiative

Key benefits: Free or assured access to specified diagnostic tests through participating public facilities.

Eligibility / target group: Patients using participating public health facilities, subject to the tests and services made available under state implementation.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

10. Ayushman Arogya Mandir - Comprehensive Primary Health Care

Key benefits: Closer-to-home primary care including preventive, promotive and basic curative services through upgraded public health facilities.

Eligibility / target group: People living in the service area of an operational Ayushman Arogya Mandir; specific service packages are facility/state dependent.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

11. Ayushman Bharat Health & Wellness Centre Programme

Key benefits: Expansion of comprehensive primary health care, including screening, chronic disease care, maternal/child services and essential medicines/diagnostics.

Eligibility / target group: Residents using designated public primary health facilities; service eligibility follows the relevant programme package.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

12. National Rural Health Mission (NRHM)

Key benefits: Strengthens rural public health services, infrastructure, workforce and community-based access to healthcare.

Eligibility / target group: Rural populations through state-run public health systems; individual access depends on the service offered.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

13. National Urban Health Mission (NUHM)

Key benefits: Strengthens primary healthcare and outreach services for urban poor and vulnerable populations.

Eligibility / target group: Urban populations, with particular focus on the urban poor and vulnerable groups, through participating public facilities.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

14. National Health Mission (NHM)

Key benefits: Umbrella programme supporting maternal, child, communicable, non-communicable and health-system interventions across India.

Eligibility / target group: Target groups vary by NHM component; services are delivered through public health systems and state programmes.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

15. Pradhan Mantri Swasthya Suraksha Yojana (PMSSY)

Key benefits: Expands tertiary healthcare capacity through new AIIMS institutions and upgrades of government medical colleges.

Eligibility / target group: Primarily a health-system infrastructure programme; benefits reach patients through participating institutions and regions.

Gender eligible: All genders

Source authority: Pradhan Mantri Swasthya Suraksha Yojana - pmssy.mohfw.gov.in

Maternal & Reproductive Health

16. Janani Suraksha Yojana (JSY)

Key benefits: Conditional maternity benefit and institutional-delivery support intended to reduce maternal and neonatal mortality through increased access to safe delivery.

Eligibility / target group: Eligible pregnant women meeting current JSY criteria and delivering through eligible institutions; state-specific conditions apply.

Gender eligible: Women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

17. Janani Shishu Suraksha Karyakram (JSSK)

Key benefits: Entitlement to free delivery/c-section and specified medicines, diagnostics, blood, diet and transport for eligible public-facility beneficiaries.

Eligibility / target group: Pregnant women delivering in public health institutions and eligible sick newborn/infant cases as covered by JSSK guidelines.

Gender eligible: Women and newborns

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

18. Pradhan Mantri Surakshit Matritva Abhiyan (PMSMA)

Key benefits: Assured antenatal check-ups and specialist-led services on designated days for pregnant women, including risk identification.

Eligibility / target group: Pregnant women accessing participating public health facilities on designated PMSMA service days.

Gender eligible: Women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

19. Extended PMSMA / High-Risk Pregnancy Tracking

Key benefits: Identification, tracking and referral of high-risk pregnancies to reduce complications and improve continuity of care.

Eligibility / target group: Pregnant women identified as high-risk through antenatal services and requiring enhanced follow-up.

Gender eligible: Women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

20. Surakshit Matritva Aashwasan (SUMAN)

Key benefits: Assured, respectful and zero-cost maternity and newborn health services at designated public facilities.

Eligibility / target group: Pregnant women and newborns using participating public facilities, subject to programme service availability.

Gender eligible: Women and newborns

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

21. LaQshya - Labour Room Quality Improvement Initiative

Key benefits: Improves quality of care during labour and immediate postpartum periods through standards, training, audits and facility improvement.

Eligibility / target group: Patients receive the benefit through participating public labour rooms; it is primarily a facility-quality programme.

Gender eligible: Women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

22. Dakshata - Strengthening Skilled Care at Birth

Key benefits: Improves provider skills for safe childbirth, management of complications and essential newborn care.

Eligibility / target group: Pregnant women benefit through care provided by trained staff; implementation is facility based.

Gender eligible: Women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

23. Mothers' Absolute Affection (MAA)

Key benefits: Promotes early and exclusive breastfeeding and counselling/support for mothers and families.

Eligibility / target group: Mothers and caregivers of newborns/infants receiving services through participating public health and community platforms.

Gender eligible: Women and infants

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

24. National Midwifery Services Initiative

Key benefits: Strengthens midwifery-led, evidence-based maternity care and respectful care for women.

Eligibility / target group: Women receiving maternity care in facilities where the midwifery programme is implemented.

Gender eligible: Women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

25. Maternal Death Surveillance and Response (MDSR)

Key benefits: Identifies causes of maternal deaths and supports corrective action to prevent avoidable maternal deaths.

Eligibility / target group: Women of reproductive age benefit indirectly through system improvements; not an individual application scheme.

Gender eligible: Women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

26. Obstetric HDU and ICU Support

Key benefits: Strengthens high-dependency and intensive-care capacity for severe pregnancy-related complications.

Eligibility / target group: Pregnant/postpartum women requiring higher-level obstetric care at participating facilities.

Gender eligible: Women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

27. Gestational Diabetes Mellitus Programme

Key benefits: Promotes screening, diagnosis, treatment and follow-up for diabetes first detected during pregnancy.

Eligibility / target group: Pregnant women attending participating antenatal services and meeting screening criteria.

Gender eligible: Women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

28. Standard Operating Procedures for HIV & Syphilis Screening in Pregnancy

Key benefits: Supports routine screening and referral/treatment to reduce mother-to-child transmission and pregnancy complications.

Eligibility / target group: Pregnant women receiving antenatal services at participating facilities.

Gender eligible: Women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

29. National Family Planning Programme

Key benefits: Provides voluntary contraception, counselling and family-planning services to support healthy birth spacing and reproductive choice.

Eligibility / target group: Individuals/couples seeking voluntary family-planning services through participating public facilities.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

30. Mission Parivar Vikas

Key benefits: Improves availability and choice of family-planning methods, counselling and services in higher-fertility priority areas.

Eligibility / target group: Individuals/couples in participating districts seeking family-planning services; local implementation rules apply.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

31. Antara Programme

Key benefits: Provides injectable contraceptive services as a reversible spacing option through participating public facilities.

Eligibility / target group: Eligible clients seeking voluntary injectable contraception and meeting clinical/service criteria.

Gender eligible: Primarily women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

32. Chhaya - Centchroman Contraceptive Programme

Key benefits: Provides a non-hormonal oral contraceptive option through public-sector family-planning services.

Eligibility / target group: Eligible women seeking voluntary contraception and meeting clinical/service criteria.

Gender eligible: Women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

33. Postpartum IUCD (PPIUCD) Services

Key benefits: Offers long-acting reversible contraception soon after childbirth for voluntary birth spacing.

Eligibility / target group: Postpartum women who voluntarily choose the method and satisfy clinical criteria.

Gender eligible: Women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

34. Post-Abortion IUCD (PAIUCD) Services

Key benefits: Provides voluntary post-abortion contraception to reduce unintended pregnancy and support healthy spacing.

Eligibility / target group: Eligible women receiving abortion/post-abortion care and choosing the method after counselling.

Gender eligible: Women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

35. No-Scalpel Vasectomy (NSV) Services

Key benefits: Provides a permanent male sterilization option without conventional surgical incision.

Eligibility / target group: Men voluntarily choosing permanent contraception and meeting clinical criteria.

Gender eligible: Men

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

36. Family Planning Indemnity Scheme (NFPIS)

Key benefits: Compensation/support for specified complications or failures associated with sterilization services under scheme rules.

Eligibility / target group: Clients undergoing eligible sterilization procedures in covered public/approved services and meeting claim conditions.

Gender eligible: All genders depending on procedure

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

37. Home Delivery of Contraceptives by ASHAs

Key benefits: Improves doorstep access to selected contraceptives and counselling for spacing and prevention of unintended pregnancy.

Eligibility / target group: Eligible community members seeking participating contraceptive commodities through ASHA services.

Gender eligible: All genders depending on method

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

Newborn, Child & Adolescent Health

38. Rashtriya Bal Swasthya Karyakram (RBSK)

Key benefits: Child health screening, early identification and referral for defects at birth, diseases, deficiencies and developmental delays.

Eligibility / target group: Children from birth through the notified age range, with priority groups covered through public screening systems.

Gender eligible: All children

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

39. Comprehensive Newborn Screening (CNS)

Key benefits: Screens newborns for selected health problems to support early identification and referral.

Eligibility / target group: Newborns reached by participating public-health screening services.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

40. Mobile Health Team Screening under RBSK

Key benefits: Periodic health and developmental screening through teams visiting schools and anganwadi centres.

Eligibility / target group: Children in participating anganwadi centres and schools within the RBSK service area.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

41. District Early Intervention Centre (DEIC)

Key benefits: Early intervention, assessment, therapy and referral for children identified with health or developmental concerns.

Eligibility / target group: Children referred through RBSK/newborn and child-health systems and meeting centre service criteria.

Gender eligible: All children

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

42. Facility Based Newborn Care (FBNC)

Key benefits: Specialised newborn care through SNCUs, NBSUs, NBCCs and other designated facilities.

Eligibility / target group: Newborns requiring facility-based care and referrals according to clinical need.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

43. Special Newborn Care Units (SNCU)

Key benefits: Provides specialised inpatient care for sick and low-birth-weight newborns.

Eligibility / target group: Newborns who require the level of care available at an SNCU, usually through referral/admission criteria.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

44. Newborn Stabilization Units (NBSU)

Key benefits: Stabilises sick newborns and provides short-term care before discharge or referral.

Eligibility / target group: Newborns presenting at participating facilities who need stabilisation or further referral.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

45. Newborn Baby Care Corners (NBCC)

Key benefits: Immediate essential newborn care, resuscitation and stabilisation at delivery points.

Eligibility / target group: Newborns delivered at participating health facilities.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

46. Mother Newborn Care Units (MNCU)

Key benefits: Enables mother and newborn to remain together where clinically appropriate while improving newborn care and breastfeeding.

Eligibility / target group: Postnatal mothers and stable newborns at participating facilities.

Gender eligible: Women and newborns

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

47. Navjat Shishu Suraksha Karyakram (NSSK)

Key benefits: Training and capacity building for essential newborn care and resuscitation at delivery points.

Eligibility / target group: Newborns benefit through trained birth attendants; facility-based implementation.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

48. Family Participatory Care (FPC)

Key benefits: Involves parents/families in care of sick newborns in newborn units, improving communication and supportive care.

Eligibility / target group: Families and newborns admitted to participating newborn-care facilities.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

49. Kangaroo Mother Care (KMC)

Key benefits: Skin-to-skin care and breastfeeding support for stable low-birth-weight/preterm newborns.

Eligibility / target group: Eligible low-birth-weight/preterm newborns and their mothers/caregivers, according to clinical criteria.

Gender eligible: Women and newborns

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

50. Home Based Newborn Care (HBNC)

Key benefits: Home visits and counselling for newborn care, breastfeeding, danger signs and referral after birth.

Eligibility / target group: Newborns and families reached through ASHA/home-visit services under the programme.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

51. Home Based Care for Young Child (HBYC)

Key benefits: Home-based counselling and follow-up on nutrition, growth, illness prevention and development in young children.

Eligibility / target group: Young children and caregivers covered by the programme's home-visit schedule.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

52. Facility-Based Integrated Management of Neonatal & Childhood Illness (F-IMNCI)

Key benefits: Standardised inpatient management for serious newborn and childhood illnesses.

Eligibility / target group: Sick newborns and children admitted to participating facilities.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

53. Integrated Management of Neonatal & Childhood Illness (IMNCI)

Key benefits: Community/primary-facility management and referral for common childhood illnesses.

Eligibility / target group: Infants and children presenting to participating health services.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

54. SAANS Initiative

Key benefits: Promotes prevention and timely management of childhood pneumonia and improves referral/care pathways.

Eligibility / target group: Children, especially under-five children, using participating public health services.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

55. STOP Diarrhoea Campaign

Key benefits: Promotes ORS and zinc use, caregiver awareness and timely care to reduce diarrhoeal illness and deaths.

Eligibility / target group: Children with diarrhoea and caregivers in participating public-health programmes.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

56. MusQan

Key benefits: Quality-improvement initiative for paediatric care in public health facilities.

Eligibility / target group: Children receive better quality paediatric services through participating facilities.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

57. Rashtriya Kishor Swasthya Karyakram (RKSK)

Key benefits: Adolescent-friendly preventive, promotive, counselling and referral services covering sexual/reproductive health, nutrition, mental health and other concerns.

Eligibility / target group: Adolescents aged 10-19 years, including rural/urban, married/unmarried and in/out of school adolescents.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

58. Adolescent Friendly Health Clinics (AFHCs)

Key benefits: Confidential adolescent health counselling, clinical care and referral for priority health concerns.

Eligibility / target group: Adolescents accessing designated AFHCs and meeting service-specific conditions.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

59. Peer Education Programme under RKSK

Key benefits: Trains peer educators to spread health information, encourage healthy behaviours and support adolescent referral.

Eligibility / target group: Adolescents in participating communities/schools and selected peer educators.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

Immunization, Nutrition & Preventive Health

60. Universal Immunization Programme (UIP)

Key benefits: Free routine vaccination against vaccine-preventable diseases for children and pregnant women.

Eligibility / target group: Eligible children and pregnant women according to the national immunization schedule and state implementation.

Gender eligible: Children and women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

61. Mission Indradhanush

Key benefits: Special immunization drives to reach unvaccinated and partially vaccinated children and pregnant women, especially in hard-to-reach areas.

Eligibility / target group: Eligible children and pregnant women identified for missed/partial routine immunization in campaign areas.

Gender eligible: Children and women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

62. Intensified Mission Indradhanush (IMI)

Key benefits: Intensified campaign approach to close immunization gaps in identified low-coverage areas.

Eligibility / target group: Children and pregnant women in identified campaign areas who are due or missed routine vaccines.

Gender eligible: Children and women

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

63. Pulse Polio Programme

Key benefits: Supplementary oral polio vaccination campaigns to maintain population immunity and interrupt poliovirus transmission.

Eligibility / target group: Children in the notified campaign age group, according to current national campaign guidance.

Gender eligible: All children in target age group

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

64. School Health & Wellness Programme

Key benefits: School-based health promotion and disease-prevention education covering healthy behaviours, nutrition, mental health and other themes.

Eligibility / target group: Students in participating government and government-aided schools.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

65. Weekly Iron and Folic Acid Supplementation (WIFS)

Key benefits: Iron-folic acid supplementation and anaemia-prevention support for adolescents through schools and community channels.

Eligibility / target group: Adolescents in the programme's target age groups and settings, subject to current implementation.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

66. Menstrual Hygiene Scheme (MHS)

Key benefits: Promotes menstrual hygiene awareness and access to sanitary products for adolescent girls in participating areas.

Eligibility / target group: Adolescent girls in the notified target groups and programme areas.

Gender eligible: Girls

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

67. Anaemia Mukht Bharat (AMB)

Key benefits: Comprehensive anaemia prevention and control through IFA supplementation, deworming, testing, treatment and behaviour-change support.

Eligibility / target group: Target groups include children, adolescents, women of reproductive age, pregnant women and lactating women under programme protocols.

Gender eligible: All genders depending on target group

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

68. National Iron Plus Initiative (NIPI)

Key benefits: Life-cycle iron-folic acid supplementation and anaemia prevention across children, adolescents and women.

Eligibility / target group: Programme-specific target groups across the life cycle, according to age and health status.

Gender eligible: All genders depending on target group

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

69. National Deworming Day

Key benefits: Mass deworming with albendazole to reduce soil-transmitted worm infections among children and adolescents.

Eligibility / target group: Children and adolescents in the designated national target age range; local schedules apply.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

70. Vitamin A Supplementation Programme

Key benefits: Periodic vitamin A supplementation to prevent vitamin A deficiency and related childhood illness.

Eligibility / target group: Young children in the notified age group through routine child-health services.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

71. Village Health, Sanitation and Nutrition Day (VHSND)

Key benefits: Regular village-level platform for immunization, antenatal care, nutrition, child-health and preventive services.

Eligibility / target group: Residents in participating villages, with priority to pregnant women, children and eligible families.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

72. Nutrition Rehabilitation Centre (NRC) Services

Key benefits: Facility-based management and nutrition rehabilitation for children with severe acute malnutrition and related complications.

Eligibility / target group: Children meeting current criteria for severe acute malnutrition and requiring facility-based management.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

73. National Nutrition Programme / Nutrition-related Public Health Services

Key benefits: Supports prevention and management of malnutrition through supplementation, counselling, screening and referral across public-health platforms.

Eligibility / target group: Target groups vary by component, including children, adolescents, pregnant women, lactating women and other vulnerable populations.

Gender eligible: All genders depending on target group

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

74. Kangaroo Mother Care and Small Newborn Nutrition Support

Key benefits: Promotes skin-to-skin care, breastfeeding and nutritional support for vulnerable newborns.

Eligibility / target group: Preterm/low-birth-weight newborns and their mothers/caregivers meeting clinical criteria.

Gender eligible: Women and newborns

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

Communicable Disease Control

75. National Tuberculosis Elimination Programme (NTEP)

Key benefits: Free TB diagnostic, treatment, notification, prevention and follow-up services through the public health system.

Eligibility / target group: People with presumptive or diagnosed TB and eligible contacts, according to current NTEP protocols.

Gender eligible: All genders

Source authority: Central Tuberculosis Division - tbcindia.mohfw.gov.in

76. Nikshay Poshan Yojana

Key benefits: Direct benefit support for nutritional assistance to eligible notified TB patients during treatment.

Eligibility / target group: Notified TB patients who meet the current NTEP benefit-generation and banking/identity conditions.

Gender eligible: All genders

Source authority: Central Tuberculosis Division - tbcindia.mohfw.gov.in

77. Ni-kshay Mitra Initiative

Key benefits: Community support to TB patients through nutritional and social assistance from Ni-kshay Mitras.

Eligibility / target group: TB patients enrolled through NTEP who are matched with available community support under current guidelines.

Gender eligible: All genders

Source authority: Central Tuberculosis Division - tbcindia.mohfw.gov.in

78. Pradhan Mantri TB Mukh Bharat Abhiyaan

Key benefits: Community engagement and support for TB elimination, including nutrition and patient support initiatives.

Eligibility / target group: People affected by TB and communities participating in the national TB-elimination effort.

Gender eligible: All genders

Source authority: Central Tuberculosis Division - tbcindia.mohfw.gov.in

79. TB Preventive Treatment (TPT)

Key benefits: Preventive treatment for eligible people at high risk of developing TB disease.

Eligibility / target group: Eligible household/close contacts and other risk groups identified through NTEP and current clinical protocols.

Gender eligible: All genders

Source authority: Central Tuberculosis Division - tbcindia.mohfw.gov.in

80. Differentiated TB Care Programme

Key benefits: Risk-stratified and patient-centred TB care, including enhanced support for vulnerable or severe cases.

Eligibility / target group: TB patients identified as needing differentiated care under current NTEP criteria.

Gender eligible: All genders

Source authority: Central Tuberculosis Division - tbcindia.mohfw.gov.in

81. National AIDS Control Programme (NACP)

Key benefits: HIV prevention, testing, treatment, care, support and targeted interventions.

Eligibility / target group: People at risk of HIV, people living with HIV and other groups covered by NACP services.

Gender eligible: All genders

Source authority: National AIDS Control Organisation - naco.gov.in

82. HIV Prevention of Parent-to-Child Transmission (PPTCT)

Key benefits: HIV testing and interventions during pregnancy, delivery and after birth to reduce transmission to infants.

Eligibility / target group: Pregnant women accessing participating antenatal/HIV services and their infants as covered by protocols.

Gender eligible: Women and infants

Source authority: National AIDS Control Organisation - naco.gov.in

83. HIV Antiretroviral Therapy (ART) Services

Key benefits: Free or programme-supported antiretroviral treatment and clinical monitoring for people living with HIV.

Eligibility / target group: People diagnosed with HIV and enrolled at participating ART centres under current eligibility and clinical guidance.

Gender eligible: All genders

Source authority: National AIDS Control Organisation - naco.gov.in

84. National Viral Hepatitis Control Programme

Key benefits: Prevention, testing, management and referral support for viral hepatitis, with focus on hepatitis B and C.

Eligibility / target group: People in target groups and patients diagnosed or screened through participating services; component-specific criteria apply.

Gender eligible: All genders

Source authority: Ministry of Health & Family Welfare - mohfw.gov.in

85. National Leprosy Eradication Programme (NLEP)

Key benefits: Early detection, free multidrug therapy, disability prevention and rehabilitation for leprosy.

Eligibility / target group: People with suspected or diagnosed leprosy and their eligible contacts through public health services.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

86. National Vector Borne Disease Control Programme (NVBDCP)

Key benefits: Integrated prevention, diagnosis, treatment and vector-control measures for major vector-borne diseases.

Eligibility / target group: People living in programme areas and cases identified through participating public health services.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

87. National Malaria Elimination Programme (NMEP)

Key benefits: Malaria surveillance, diagnosis, treatment and vector control to reduce transmission and deaths.

Eligibility / target group: People in malaria-risk areas and suspected/confirmed malaria cases according to programme protocols.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

88. National Kala-azar Elimination Programme

Key benefits: Diagnosis, treatment, surveillance and vector-control support aimed at eliminating visceral leishmaniasis.

Eligibility / target group: People in endemic areas and diagnosed/suspected cases managed through public health services.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

89. National Filaria Elimination Programme

Key benefits: Mass drug administration, morbidity management and vector-control measures to eliminate lymphatic filariasis.

Eligibility / target group: Eligible residents in notified endemic areas according to campaign and clinical guidelines.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

90. National Dengue Control Programme

Key benefits: Surveillance, diagnosis, case management, vector control and community prevention for dengue.

Eligibility / target group: People with suspected/confirmed dengue and communities in programme areas.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

91. Chikungunya Control Programme

Key benefits: Surveillance, clinical management, vector control and community prevention for chikungunya.

Eligibility / target group: People with suspected/confirmed infection and communities in affected areas.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

92. Japanese Encephalitis Control Programme

Key benefits: Vaccination where indicated, surveillance, case management and vector-control measures for JE.

Eligibility / target group: Target populations in notified endemic areas and patients needing JE care.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

93. National Rabies Control Programme

Key benefits: Rabies prevention through post-exposure prophylaxis, awareness, vaccination of at-risk populations/animals and surveillance.

Eligibility / target group: People exposed to suspected rabid animals and other target groups according to clinical/public-health guidance.

Gender eligible: All genders

Source authority: National Centre for Disease Control - ncdc.mohfw.gov.in

94. Programme for Prevention and Control of Leptospirosis

Key benefits: Surveillance, prevention, diagnosis and treatment support for leptospirosis and outbreak control.

Eligibility / target group: People in risk areas or exposed populations with suspected/confirmed disease.

Gender eligible: All genders

Source authority: National Centre for Disease Control - ncdc.mohfw.gov.in

95. National One Health Programme for Prevention and Control of Zoonoses

Key benefits: Integrated human-animal-environment surveillance and response for zoonotic disease threats.

Eligibility / target group: Communities and populations exposed to zoonotic risks; services are delivered through public-health systems.

Gender eligible: All genders

Source authority: National Centre for Disease Control - ncdc.mohfw.gov.in

96. National Programme for Prevention and Control of Snakebite Envenoming

Key benefits: Prevention awareness, early treatment, antivenom access and health-system preparedness for snakebite.

Eligibility / target group: People bitten by snakes and communities in affected/high-risk areas.

Gender eligible: All genders

Source authority: National Centre for Disease Control - ncdc.mohfw.gov.in

97. Integrated Disease Surveillance Programme (IDSP)

Key benefits: Early detection and response to outbreaks through surveillance, reporting, laboratory and rapid-response systems.

Eligibility / target group: Population-level public-health protection; individuals benefit through outbreak detection and response.

Gender eligible: All genders

Source authority: National Centre for Disease Control - ncdc.mohfw.gov.in

98. Antimicrobial Resistance (AMR) Containment Programme

Key benefits: Surveillance, stewardship, infection prevention and public awareness to reduce antimicrobial resistance.

Eligibility / target group: Health systems and the general population through improved antibiotic use and infection control.

Gender eligible: All genders

Source authority: National Centre for Disease Control - ncdc.mohfw.gov.in

99. National Public Health Surveillance Programme

Key benefits: Strengthens surveillance, analytics and response for public-health threats.

Eligibility / target group: Population-level; individuals benefit through earlier detection and public-health action.

Gender eligible: All genders

Source authority: National Centre for Disease Control - ncdc.mohfw.gov.in

100. Guinea Worm Eradication Programme

Key benefits: Surveillance and outbreak-response measures supporting eradication of Guinea worm disease.

Eligibility / target group: Populations in any remaining risk or surveillance areas; individual cases receive public-health management.

Gender eligible: All genders

Source authority: National Centre for Disease Control - ncdc.mohfw.gov.in

101. Yaws Eradication Programme

Key benefits: Case detection, treatment and surveillance to interrupt transmission of yaws.

Eligibility / target group: People in affected/surveillance populations and detected cases according to public-health protocols.

Gender eligible: All genders

Source authority: National Centre for Disease Control - ncdc.mohfw.gov.in

102. National Biomonitoring Programme for Chemical Toxicants

Key benefits: Monitors exposure to selected chemical toxicants and supports prevention and public-health response.

Eligibility / target group: Population-level; specific exposed communities may be prioritised for monitoring.

Gender eligible: All genders

Source authority: National Centre for Disease Control - ncdc.mohfw.gov.in

103. National Programme on Climate Change & Human Health

Key benefits: Builds health-system preparedness and prevention for heat, climate-sensitive diseases and other climate-health risks.

Eligibility / target group: Communities and populations exposed to climate-related health risks.

Gender eligible: All genders

Source authority: National Centre for Disease Control - ncdc.mohfw.gov.in

Non-Communicable, Mental Health & Geriatric Care

104. National Programme for Prevention and Control of Non-Communicable Diseases (NP-NCD)

Key benefits: Population screening, risk assessment, prevention, treatment and referral for common non-communicable diseases.

Eligibility / target group: Adults and other target groups reached through public screening and NCD services; age/risk criteria vary by condition.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

105. National Programme for Prevention and Control of Cancer, Diabetes, Cardiovascular Diseases & Stroke

Key benefits: Integrated screening, early diagnosis, treatment, referral and prevention for major NCDs.

Eligibility / target group: Eligible adult populations and diagnosed patients through participating public facilities according to screening/service protocols.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

106. National Programme for Control of Blindness & Visual Impairment (NPCBVI)

Key benefits: Prevention, detection, treatment and rehabilitation for avoidable blindness and visual impairment.

Eligibility / target group: People with visual impairment or eye conditions who use participating public eye-care services.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

107. National Mental Health Programme (NMHP)

Key benefits: Promotes accessible mental-health care, awareness, treatment and referral through public systems.

Eligibility / target group: People with mental-health needs through participating public mental-health services.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

108. District Mental Health Programme (DMHP)

Key benefits: District-level outpatient mental-health services, counselling, medicines, referral and community awareness.

Eligibility / target group: Residents of participating districts needing mental-health support.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

109. Tele-MANAS

Key benefits: Tele-mental-health counselling, support and referral through a national tele-mental-health service.

Eligibility / target group: People seeking mental-health support and referral through the service.

Gender eligible: All genders

Source authority: Ministry of Health & Family Welfare - mohfw.gov.in

110. National Programme for Health Care of the Elderly (NPHCE)

Key benefits: Geriatric preventive, promotive, curative and rehabilitative services through designated public facilities.

Eligibility / target group: Older persons receiving services at participating health facilities; age thresholds follow programme guidance.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

111. National Programme for Prevention & Control of Deafness (NPPCD)

Key benefits: Screening, diagnosis, treatment, hearing rehabilitation and referral for hearing loss.

Eligibility / target group: People with suspected or diagnosed hearing problems in participating services.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

112. National Tobacco Control Programme (NTCP)

Key benefits: Tobacco-use prevention, cessation counselling, awareness and enforcement support.

Eligibility / target group: General population; people who use tobacco may access cessation support where provided.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

113. National Oral Health Programme (NOHP)

Key benefits: Promotes oral-health awareness, screening, prevention and treatment/referral for common oral diseases.

Eligibility / target group: People using participating public oral-health services.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

114. National Programme for Palliative Care (NPPC)

Key benefits: Palliative and end-of-life care, symptom relief, pain management and caregiver support.

Eligibility / target group: People with serious/life-limiting illness needing palliative care through participating services.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

115. National Programme for Prevention & Management of Burn Injuries (NPPMBI)

Key benefits: Burn prevention, acute treatment, rehabilitation and system-strengthening for burn care.

Eligibility / target group: People with burn injuries who access participating facilities; prevention activities cover communities.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

116. National Programme for Prevention and Control of Fluorosis (NPPCF)

Key benefits: Prevention, early detection and management of fluorosis caused by excess fluoride exposure.

Eligibility / target group: People in identified high-fluoride areas and patients with suspected/confirmed fluorosis.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

117. National Iodine Deficiency Disorders Control Programme (NIDDCP)

Key benefits: Prevention and control of iodine deficiency through iodised salt promotion, surveillance and awareness.

Eligibility / target group: General population, especially communities at risk of iodine deficiency.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

118. National Sickle Cell Anaemia Elimination Mission

Key benefits: Screening, counselling, confirmatory diagnosis, treatment support and long-term care for sickle cell disease.

Eligibility / target group: Target populations in mission areas, including children/adolescents and at-risk adults, according to screening guidelines.

Gender eligible: All genders

Source authority: Ministry of Health & Family Welfare - mohfw.gov.in

119. National Programme for Control and Treatment of Occupational Diseases

Key benefits: Prevention, surveillance, diagnosis and management of selected occupational health conditions.

Eligibility / target group: Workers in covered occupations/exposure settings and people identified through participating occupational-health services.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

120. National Programme for Promotion of Mental Health in Schools

Key benefits: School-based mental-health promotion, life skills, awareness and referral through health and wellness activities.

Eligibility / target group: Students and school communities in participating institutions.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

121. National Programme for Prevention of Chronic Kidney Disease - Screening under Primary Care

Key benefits: Supports risk identification and referral for chronic kidney disease through primary-care NCD services.

Eligibility / target group: Adults/adolescents meeting local screening criteria through participating facilities.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

122. National Programme for Hypertension and Diabetes Screening & Management

Key benefits: Community screening, diagnosis, treatment initiation, follow-up and referral for hypertension and diabetes.

Eligibility / target group: Adults in target screening populations and diagnosed patients using public NCD services.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

Disability, Rehabilitation & Assistive Care

123. Assistance to Persons with Disabilities for Purchase/Fitting of Aids & Appliances (ADIP)

Key benefits: Provides assistive devices and related support to eligible persons with disabilities to improve independence and functioning.

Eligibility / target group: Persons with disabilities meeting current ADIP disability, income and certification conditions.

Gender eligible: All genders

Source authority: Department of Empowerment of Persons with Disabilities - depwd.gov.in

124. Unique Disability ID (UDID) Project

Key benefits: Digital disability identification and certification system supporting access to disability benefits and services.

Eligibility / target group: Persons with disabilities seeking disability certification/UDID under the applicable process.

Gender eligible: All genders

Source authority: Department of Empowerment of Persons with Disabilities - depwd.gov.in

125. District Disability Rehabilitation Centres (DDRCs)

Key benefits: District-level assessment, rehabilitation, therapy, counselling and linkage to assistive devices and entitlements.

Eligibility / target group: Persons with disabilities and people needing rehabilitation services within participating districts.

Gender eligible: All genders

Source authority: Department of Empowerment of Persons with Disabilities - depwd.gov.in

126. Cross Disability Early Intervention Centres (CDEICs)

Key benefits: Early identification, intervention and rehabilitation for children with disabilities or developmental concerns.

Eligibility / target group: Children with disabilities/developmental concerns meeting the centre's service scope and referral criteria.

Gender eligible: All genders

Source authority: Department of Empowerment of Persons with Disabilities - depwd.gov.in

127. National Fund for Persons with Disabilities

Key benefits: Financial assistance under current guidelines for specified disability-related needs and support.

Eligibility / target group: Persons with disabilities meeting the current National Fund guidelines and documentation requirements.

Gender eligible: All genders

Source authority: Department of Empowerment of Persons with Disabilities - depwd.gov.in

128. Deendayal Disabled Rehabilitation Scheme (DDRS)

Key benefits: Grant support to organisations providing rehabilitation, early intervention, education and other services for persons with disabilities.

Eligibility / target group: Benefits reach persons with disabilities through eligible implementing organisations; not a universal individual cash scheme.

Gender eligible: All genders

Source authority: Department of Empowerment of Persons with Disabilities - depwd.gov.in

129. National Trust - Niramaya Health Insurance

Key benefits: Health insurance support for eligible persons with specified developmental disabilities under the National Trust framework.

Eligibility / target group: Eligible persons covered by National Trust disability categories and meeting current enrolment conditions.

Gender eligible: All genders

Source authority: Department of Empowerment of Persons with Disabilities - depwd.gov.in

130. National Trust - Early Intervention & Rehabilitation Services

Key benefits: Support for therapy, early intervention, respite/care and rehabilitation services through approved organisations and schemes.

Eligibility / target group: Persons with specified disabilities and their caregivers under applicable National Trust scheme conditions.

Gender eligible: All genders

Source authority: Department of Empowerment of Persons with Disabilities - depwd.gov.in

AYUSH & Traditional Healthcare

131. National AYUSH Mission (NAM)

Key benefits: Strengthens AYUSH services, infrastructure, medicines, wellness centres and integrated public-health delivery.

Eligibility / target group: Communities served by participating AYUSH facilities/programmes; individual services depend on local implementation.

Gender eligible: All genders

Source authority: Ministry of AYUSH - ayush.gov.in

132. AYURGYAN Scheme

Key benefits: Supports AYUSH education, capacity building, continuing medical education and research/innovation.

Eligibility / target group: Primarily AYUSH professionals, institutions and researchers meeting programme application criteria.

Gender eligible: All genders

Source authority: Ministry of AYUSH - ayush.gov.in

133. AYURSWASTHYA Yojana

Key benefits: Supports AYUSH public-health interventions and centres of excellence for AYUSH healthcare and evidence generation.

Eligibility / target group: Benefits are delivered through approved institutions/projects; individual access depends on participating services.

Gender eligible: All genders

Source authority: Ministry of AYUSH - ayush.gov.in

134. Central Sector Scheme for IEC in AYUSH

Key benefits: Health education, awareness, fairs and information activities about AYUSH systems and their evidence-based uses.

Eligibility / target group: General public for awareness activities; grants are separately available to eligible organisations.

Gender eligible: All genders

Source authority: Ministry of AYUSH - ayush.gov.in

135. Central Sector Scheme for International Cooperation in AYUSH

Key benefits: Promotes international recognition, cooperation, knowledge exchange and development of AYUSH systems.

Eligibility / target group: Primarily institutions, professionals and organisations meeting scheme conditions; public benefit is indirect.

Gender eligible: All genders

Source authority: Ministry of AYUSH - ayush.gov.in

136. AYUSH Oushadhi Gunvatta evam Utpadan Samvardhan Yojana (AOGUSY)

Key benefits: Supports quality, standardisation and strengthening of AYUSH medicines and related production systems.

Eligibility / target group: Eligible AYUSH organisations/industry/research institutions under the relevant component.

Gender eligible: All genders

Source authority: Ministry of AYUSH - ayush.gov.in

137. Scheme for Conservation, Development and Sustainable Management of Medicinal Plants

Key benefits: Supports conservation, cultivation, sustainable management and availability of medicinal plants.

Eligibility / target group: Eligible implementing agencies, growers and stakeholders under programme rules; public health benefit is indirect.

Gender eligible: All genders

Source authority: Ministry of AYUSH - ayush.gov.in

138. Champion Services Sector Scheme for Medical Value Travel in AYUSH

Key benefits: Supports infrastructure and services aimed at promoting AYUSH-based medical value travel and quality services.

Eligibility / target group: Eligible institutions/organisations under scheme guidelines; patients benefit through participating services.

Gender eligible: All genders

Source authority: Ministry of AYUSH - ayush.gov.in

139. AYUSH Health & Wellness Centres / AYUSH Arogya Mandirs

Key benefits: Provides AYUSH-based wellness, prevention, lifestyle and selected care services through participating centres.

Eligibility / target group: Residents using participating AYUSH public/community health services.

Gender eligible: All genders

Source authority: Ministry of AYUSH - ayush.gov.in

140. Promotion of AYUSH Intervention in Public Health Initiatives (PHI)

Key benefits: Supports evidence-building projects using AYUSH interventions for public-health problems.

Eligibility / target group: Primarily participating institutions and communities covered by approved projects; not a universal cash benefit.

Gender eligible: All genders

Source authority: Ministry of AYUSH - ayush.gov.in

Health Systems, Emergency & Digital Health

141. Pradhan Mantri Ayushman Bharat Health Infrastructure Mission (PM-ABHIM)

Key benefits: Strengthens public-health infrastructure, laboratories, surveillance and health emergency preparedness.

Eligibility / target group: Population-level health benefit; individuals benefit through stronger public-health facilities and systems.

Gender eligible: All genders

Source authority: Ministry of Health & Family Welfare - mohfw.gov.in

142. eSanjeevani

Key benefits: Government telemedicine services connecting patients and health workers with doctors and specialists.

Eligibility / target group: People using participating telemedicine services; access depends on state/service availability.

Gender eligible: All genders

Source authority: Ministry of Health & Family Welfare - mohfw.gov.in

143. Ayushman Bharat Digital Mission (ABDM)

Key benefits: Digital health infrastructure including interoperable health records and digital health identifiers/services.

Eligibility / target group: Citizens and participating health providers using supported digital health services.

Gender eligible: All genders

Source authority: Ministry of Health & Family Welfare - mohfw.gov.in

144. National Ambulance Services

Key benefits: Emergency and patient-transport services, including referral transport, through state-supported ambulance networks.

Eligibility / target group: People needing emergency or referral transport according to the applicable state service model.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

145. Mobile Medical Units (MMUs)

Key benefits: Brings preventive, promotive and curative healthcare to remote, difficult and underserved areas.

Eligibility / target group: People living in remote/underserved locations covered by the participating MMU service plan.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

146. ASHA Programme / Community Health Worker Support

Key benefits: Community-level health education, mobilization, referral and linkage to maternal, child, immunization and other services.

Eligibility / target group: Community residents benefit through ASHA services; ASHA workers themselves have separate incentive provisions.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

147. ASHA Incentive Framework

Key benefits: Performance-linked incentives for ASHAs for specified community-health activities and service mobilisation.

Eligibility / target group: ASHA workers meeting activity/payment conditions; this is a workforce incentive programme.

Gender eligible: Primarily women workers

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

148. Rogi Kalyan Samiti

Key benefits: Local facility-level governance and patient-service improvement through community/facility committees.

Eligibility / target group: Patients benefit through participating public facilities; not an individual application scheme.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

149. Kayakalp Initiative

Key benefits: Promotes cleanliness, hygiene, infection prevention, waste management and quality improvement in public health facilities.

Eligibility / target group: Patients and facility users benefit through improved participating facilities.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

150. National Quality Assurance Standards (NQAS)

Key benefits: Quality assurance and continuous improvement across public health facilities.

Eligibility / target group: Patients using participating public health facilities; facility-level intervention.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

151. National Ambulance 108/102 Referral Transport Services

Key benefits: Emergency ambulance and maternity/referral transport access under state-supported ambulance systems.

Eligibility / target group: People needing emergency/referral transport, with service rules varying by state.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

152. Integrated Health Information Platform (IHIP)

Key benefits: Digital surveillance platform supporting timely reporting, analytics and public-health response.

Eligibility / target group: Population-level benefit through faster disease surveillance and response.

Gender eligible: All genders

Source authority: Ministry of Health & Family Welfare - mohfw.gov.in

153. Health Management Information System (HMIS)

Key benefits: Supports planning, monitoring and reporting of public-health services using routine health data.

Eligibility / target group: Population-level health-system benefit; not an individual application scheme.

Gender eligible: All genders

Source authority: Ministry of Health & Family Welfare - mohfw.gov.in

154. Village Health, Sanitation and Nutrition Committee (VHSNC)

Key benefits: Community participation in local health, sanitation and nutrition planning and monitoring.

Eligibility / target group: Residents of participating villages; service benefits are community based.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

155. Health and Wellness Centres - Population Health Screening

Key benefits: Community-based screening and referral for common NCDs and selected other health conditions.

Eligibility / target group: Adults and other target populations reached by participating facilities according to screening protocols.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in

156. Health & Wellness Outreach for Remote/Tribal Areas

Key benefits: Extends preventive and primary health services to geographically hard-to-reach and vulnerable communities.

Eligibility / target group: Residents of covered remote/tribal areas through designated outreach services.

Gender eligible: All genders

Source authority: National Health Mission, Ministry of Health & Family Welfare - nhm.gov.in
